The Company and the Brokerage House are not liable for the non-fulfilment of the Share Sale Offers received by the Brokerage House prior to or after the date of accepting the Share Sale Offers or for any incorrectly submitted Sale Offers or illegible Sale Offers.

If the Sale Offer is submitted through a representative, the Shareholder should review section 9 below as regards acting through a proxy.

In order to standardise the documents necessary to submit the Sale Offer, a complete set of forms will be available at each POK listed in Schedule No. 1 to this Offer and will be sent to the entities maintaining the securities accounts – the NDS Participants.

Each of the Sale Offers submitted by a Shareholder should be for the number of shares in the Company as stated in the depository certificate attached to the Sale Offer. 10. Withdrawal from the Offer

The Company reserves the right to cancel the Offer or to withdraw from the completion thereof both prior to and after the commencement of the period for accepting the Sale Offers. Specifically, the Company may withdraw from the Offer if another entity announces an offer to purchase the

shares in the Company, including any public tender offer regarding the sale or exchange of the shares.

The Buy-back Programme, and specifically this Offer, is regarded by the Company as a means of distributing some of the accumulated retained profits of the Company to its Shareholders. In view of the above, it is the intention of the Company to seek to buy back the treasury shares from as many shareholders as possible.

If the Offer is cancelled, the relevant information will be published by way of a current report of the Company, through the Polish Press Agency, on the Company's website (<http://investor.tvn.pl>) and on the Brokerage House's website (www.dmbzwbk.pl).

If the Offer is cancelled or in case of the withdrawal therefrom, the Company will not be liable for the reimbursement of any costs incurred by the Shareholders, their proxies or statutory representatives in relation to the submission of the Sale Offers or any other actions which were required in relation to submitting the Sale Offers, or the payment of any compensation whatsoever.

11. Acquiring the shares from the Shareholders and rules of reduction

The Company will accept the Sale Offers filed within the period designated for the acceptance of the Sale Offers in accordance with the below-described rules of reduction.

In result of the Offer, the Company will acquire no more than 5,000,000 (five million) shares in the Company which, as at the date of the announcement of the Offer, constitute no more than 1.44% of the share capital of the Company (the Acquired Shares). If the total number of the shares covered by all the Sale Offers submitted within the time designated for the acceptance of the Sale Offers is greater than the number of the Acquired Shares, the Company will reduce the number of the shares covered by the Sale Offers. The final number of the shares to be acquired from the specific Shareholders will be determined in accordance with the rules specified below.

Legal considerations impacting the method of reduction of the number of shares acquired by the Company from the specific Shareholders

Both the fact that the Company operates in the radio and television industry on the basis of a licence (*koncesja*) granted by the Chairman of the Polish National Broadcasting Council as well as the Company's incentive programmes determine the manner of reduction of the number of shares acquired by the Company from particular Shareholders.

Pursuant to Article 40a of the Polish Broadcasting Act, any disposal of the shares in the Company in favour of a natural or legal person whose place of residence or registered office is outside the territory of a member state of the European Economic Area requires a permit of the Chairman of the Polish National Broadcasting Council. Any disposal of the shares in breach of the rules referred to in the preceding sentence is invalid. Under decision No. DK-181/2004, dated 22 September 2004, the Chairman of the Polish National Broadcasting Council granted a permit for the disposal of the publicly traded bearer shares in the Company up to 49% of the Company's share capital.

There are two incentive plans at the Company that grant options to subscribe for shares to selected members of the management board, employees and key collaborators of the Company. The option rights were granted under two incentive plans:

1. the incentive plan I introduced on 27 December 2005; and
2. the incentive plan II, introduced on 31 July 2006 as part of the Grupa Onet.pl share purchase transaction (the "**Incentive Plans**").

Under the Incentive Plans the Company issued 18,651,675 subscription warrants authorising their holders to subscribe for 18,651,675 shares in the Company. As at 9 May 2014, there were 3,813,076 unsettled options granting the right to subscribe for 3,813,076 shares in the Company. The Incentive

Plans expire on 31 December 2014. If the Incentive Programmes are implemented in full, the share of the registered shares held by Polish Television Holding B.V. in the share capital of the Company will decrease to 51.09%, thus to a level close to the minimum threshold defined in decision No. DK-181/2004 dated 22 September 2004.

Method of reduction of the number of the shares acquired by the Company from particular Shareholders

The reduction of the number of the shares covered by the Sale Offers will be effected in such a way so as to ensure that after the settlement of the Offer the shareholding of Polish Television Holding B.V. in the Company (on a fully diluted basis) will be maintained, i.e. will remain at 51.09%. Under the Offer the Company will buy back no more than 2,554,500 shares held by Polish Television Holding B.V. (the “**PTH Shares**”) and no more than 2,445,500 shares held by the other Shareholders (the “**Listed Shares**”) which, as at the date of the Offer, constitute no more than 0.74% and no more than 0.70% of the Company’s share capital, respectively.

If the total number of the Listed Shares covered by all the Sale Offers submitted within the period for accepting the Sale Offers is greater than 2,445,500, the Company will reduce pro rata the number of the Listed Shares covered by the Sale Offers. The final number of the Listed Shares acquired from particular Shareholders will be determined by multiplying the number of the Listed Shares covered by the Sale Offers submitted by a given Shareholder by the allotment rate (being the outcome of dividing 2,445,500 by the total number of the Listed Shares covered by all the Sale Offers submitted within the time of the acceptance thereof) and then rounding the thus obtained product down to the next full share. The shares remaining after applying the above rounding procedure (i.e. the shares equal to the difference between 2,445,500, and the total number of shares covered by the reduced and rounded Sale Offers) will be allotted to the Shareholders one each, starting from the Shareholders whose Sale Offer was reduced to the greatest extent (i.e. who were subject to the highest decimal fraction subject to rounding down to the next full share) as long as all the shares are allotted. If the number of the Listed Shares remaining to be acquired does not cover the number of Shareholders authorised to sell the shares to the Company in accordance with the preceding sentence, the Company will acquire the shares from the Shareholder who filed a Sale Offer covering a greater number of shares. If two or more Shareholders filed Sale Offers for the same number of shares, the shares will be acquired from the Shareholder who filed its Sale Offer earlier.

If the Shareholders holding the rights to the Listed Shares do not file Sale Offers covering at least 2,445,500 shares, the number of shares that the Company will acquire from Polish Television Holding B.V. will be proportionately decreased so that, after the settlement of the Offer, the PTH Shares in the share capital of the Company (on a fully diluted basis) will amount to at least 51.09%. Otherwise, if the Shareholders holding the rights to the Listed Shares do file Sale Offers covering at least 2,445,500 shares, the number of shares that the Company will acquire from Polish Television Holding B.V. will not be decreased in accordance with the rules of reduction provided for the Shareholders holding the rights to the Listed Shares.

Only those Sale Offers submitted in compliance with these terms and conditions of the Offer will be accepted. Specifically, no Sale Offers with incorrect or incomplete forms of the Sale Offer or offers to which either no deposit certificate or an erroneous depository certificate has been attached to confirm that the shares in the Company were blocked and that irrevocable settlement instructions were issued will be accepted.

The transfer of the ownership title to the shares between the Shareholders that submit correct Sale Offers and the Company will be effected outside the regulated market and settled within the deposit settlement system of the NDS. The entity intermediating in the settlement is the Brokerage House.

12. Payment of the Purchase Price

All the Acquired Shares, in the number determined in accordance with section 11 above, will be paid for by the Company in cash. The amount being the product of the final number of the shares acquired from the particular Shareholders participating in the Offer and the Purchase Price, less any commission due and any other fees (if such commission or fees are charged by the entity conducting brokerage activity or the Trustee Bank which issues the settlement instructions, in accordance with the rates applied by such entity) will be transferred to the account of the entity conducting brokerage activity or the Trustee Bank issuing settlement instructions for all the Shareholders holding a securities account with such entity.

13. Redemption of the Company's shares

Following the settlement of the Offer and the registration of the Acquired Shares in the Company's securities account, the Company's management board will convene an extraordinary general meeting of the Company in order to adopt resolutions regarding the redemption of the shares in the Company acquired under the Offer or will propose that the agenda of the next ordinary general meeting of the Company includes the adoption of the above-mentioned resolutions.

14. Legal nature of the Offer

This offer is not a public tender offer to subscribe for the sale or exchange of shares as referred to in Article 72 and the following of the Act on Public Offering. In particular, this offer is not subject to Article 77 and 79 of the Act on Public Offering, or the Regulation. This offer is also not an offer as defined in Article 66 of the Civil Code.

The Company announced the buy-back of its treasury shares in the form of this Offer considering the public status of the Company and in order to ensure the equal treatment of all the Shareholders. It is the intention of the Company, as a publicly listed company, to apply a form of buy-back of its treasury shares that would be optimal in light of the Shareholders' interests, in order to ensure that all the Shareholders have equal opportunity to sell the shares in the Company held thereby, while also ensuring that the Company complies with the Polish Broadcasting Act as well as the terms and conditions of decision No. DK-181/2004 of 22 September 2004. This Offer is used by the Company to buy back the shares on terms that are merely similar to the terms and conditions of a public tender offer to subscribe for the sale or exchange of shares as referred to in the Act on Public Offering or in the Regulation.

This document does not require the approval of or delivery to the Polish Financial Supervision Authority or any other authority.

This document is not an offer of purchase and does not solicit the sale of any securities in any state where the making of any such offer or soliciting the sale of securities would be illegal or would require any permits, notifications or registration.

This document does not constitute investment, legal or tax advice. In any and all matters related with the Offer the Shareholders should consult investment, legal and tax advisors.

On the date of the announcement of this Offer, the Offer was published by the Company by way of a current report and through PAP. The full and complete wording of the Offer is also available on the Company's website (<http://investor.tvn.pl>) and on the website of the Brokerage House (www.dmbzwbk.pl).

Any additional information regarding the procedure of accepting the Sale Offers in response to this Offer may be obtained at any POK either in person or by telephone or, alternatively, at the offices of

the Brokerage House, under the following telephone numbers: 022 586 85 49, 022 586 85 64, 061 856 46 50.

15. Taxation

Taxation of proceeds from the sale of the Acquired Shares in favour of the Company for the purposes of the redemption thereof

The following information regarding the tax aspects of the sale of the Acquired Shares in favour of the Company for the purposes of the redemption thereof is of a general nature and does not constitute an exhaustive analysis of the tax consequences. Therefore, the investors should, in individual cases, consult their own tax, financial or legal advisers or secure an official position of the relevant administrative authorities having jurisdiction in such area.

Taxation of income generated by natural persons from the sale of the Acquired Shares in exchange for compensation for the purposes of the redemption thereof

Pursuant to the PIT Act, income (revenue) generated in result of the sale of shares in exchange for compensation in favour of a company for the purposes of redemption is classified as income (revenue) from sale of securities in exchange for compensation.

Pursuant to Article 30b section 1 of the PIT Act, income from the transfer of the ownership of securities (including the Acquired Shares) in exchange for consideration is taxed at a flat rate of 19%. Taxable income from the disposal of securities in exchange for consideration is calculated as the difference between the proceeds from the disposal of securities (value of the securities at the price set forth in the relevant contract) and the tax deductible costs thereof (in principle, the expenditure related to the acquisition of these securities or their subscription) earned in a given tax year; where the price of securities, without sound reason, significantly differs from its market value, revenue from the disposal of securities in exchange for consideration will be determined by a tax authority in the amount that reflects their market value. Such income is not aggregated with income from other sources and is taxed separately. If a tax payer makes a transfer of securities acquired at various prices against payment and it is not possible to determine the purchase price of the transferred securities, the income from such transfer will be determined in accordance with the principle that each transfer applies successively to the securities which were acquired at the earliest date. The principle referred to in the preceding sentence is applied separately to each securities account.

During the tax year individuals who earn income from the disposal of securities in exchange for consideration are not required to make any income tax prepayment. Tax on the above-mentioned transaction is not withheld by the tax remitters (the Company, the entities keeping securities accounts for taxpayers, etc.). However, after the end of a given tax year, which in the case of individuals is the same as the calendar year, tax payers earning income from the disposal of securities in exchange for consideration are required to disclose such income in their annual tax return, calculate the amount of tax due and pay it to the account of the relevant tax office.

In the case of a tax loss incurred on the disposal of securities in a given tax year, such loss may decrease the income generated from such source (i.e. from the disposal of securities) in the next five consecutive tax years, however, the amount of such a decrease in any particular year cannot exceed 50% of the loss. The tax loss incurred on the disposal of securities is not combined with the tax losses incurred by the tax payer on other grounds (sources of revenues).

Annual tax returns are prepared by tax payers by the end of April of the year immediately following the tax year in which the gains are made, based on personal information on the amount of the income earned, provided by the end of February of the following tax year, by sole traders, legal persons and their organisational units as well as organisational units which are not legal persons.

The above regulations do not apply if the securities are sold as a result of the performance of any business activities, as in such case the revenues from the sale of securities should be qualified as originating from the performance of such activities and should be settled according to general terms.

The above regulations apply both to natural persons who reside in the Republic of Poland (i.e. are subject to unlimited tax liability) and to natural persons who do not have any permanent residence in Poland (i.e. are subject to limited tax liability), save as otherwise stated in the relevant double tax treaties to which the Republic of Poland is a party. Pursuant to Article 3 section 2a of the PIT Act, natural persons who do not reside within the territory of the Republic of Poland are required to pay tax exclusively on income (revenues) obtained within the territory of the Republic of Poland (limited tax liability). According to Article 4a of the PIT Act, the above-mentioned regulation should be applied in connection with the double tax treaties to which Poland is a party.

In light of Article 30b, section 3 of the PIT Act, the application of a tax exemption or a lower tax rate resulting from the appropriate double tax treaty is possible, provided that the tax payer proves his place of residence for tax purposes with a relevant certificate of tax residence.

Taxation of income from the sale of the Acquired Shares in exchange for compensation for the purposes of the redemption thereof, earned by tax payers subject to corporate income tax

Income earned by persons subject to corporate income tax having their registered office or management board within the territory of the Republic of Poland (i.e. subject to unlimited tax liability in Poland) on the disposal of securities in exchange for compensation (including the disposal of the Acquired Shares in exchange for compensation in favour of the Company for the purposes of the redemption thereof) is subject to taxation under the general rules stipulated in the CIT Act. Taxable income is the difference between the proceeds from the disposal of securities (the price of the securities stated in the agreement) and the tax deductible costs (in principle, the expenditure related to the acquisition of these securities). If the price of the securities, without a justified reason, significantly differs from its market value, revenue from the disposal of securities in exchange for consideration will be determined by a tax authority at a level that reflects their market value. Income from the disposal of securities in exchange for compensation is aggregated with the income of the tax payer earned from other sources to form the taxable base. Pursuant to Article 19, section 1 of the CIT Act, the income of a corporate income tax payer is taxed at a rate of 19% of the taxable base.

Persons subject to corporate income tax and limited tax liability, i.e. tax payers who do not have their registered office or management board within the territory of the Republic of Poland, who earn income in Poland from the disposal of securities in exchange for compensation should follow the same taxation rules governing the disposal of securities as specified above, save as otherwise stated in the relevant double tax treaties to which the Republic of Poland is a party. Such tax payers may be required to present a tax residency certificate to document the legitimacy of the application of a tax rate based on a relevant double tax treaty or no tax in accordance with such treaty.

Tax on civil law transactions due with respect to the sale of the Acquired Shares in favour of the Company for the purposes of the redemption thereof

As a general rule, expressed in the Act on Tax on Civil Law Transactions, the sale of shares in companies with their registered offices in Poland is considered to be the sale of property rights exercisable in Poland and is subject to tax on civil law transactions at a flat rate of 1%.

In light of the interpretations issued by the tax authorities, a shareholder's sale of shares in exchange for compensation in favour of a company for the purposes of the redemption of such shares, regardless of the legal nature of such redemption, constitutes a special type of agreement which is not included in the scope of the Act on Tax on Civil Law Transactions and, consequently, is not subject to tax on civil law transactions.

Additionally, the Act on Tax on Civil Law Transactions provides, in certain circumstances, for an exemption of a sale of shares from the tax on civil law transactions. Pursuant to Article 9 item 9 of

the Act on Tax on Civil Law Transactions, an exemption from such tax applies to the sale of property rights that constitute financial instruments: (i) to investment firms (including foreign investment firms); or (ii) through the intermediation of investment firms (including foreign investment firms); or (iii) through organised trading; or (iv) outside organised trading by investment firms (including foreign investment firms) if such financial instruments were acquired by such companies as part of organised trading within the meaning of the Act on Trading in Financial Instruments.
