Report on review of interim financial statements

To the Shareholders and Supervisory Board of Netia S.A.

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Netia S.A. and its subsidiaries (the 'Group') as of June 30, 2014 and the related interim condensed consolidated income statement, interim condensed consolidated statement of comprehensive income, interim condensed consolidated statement of changes in equity and interim condensed consolidated statement of cash flows for the six-month period then ended and notes, comprising a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34 "Interim financial reporting". Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of interim financial information performed by the independent auditor of the entity'. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim financial reporting".

1. The Company and the Netia Group

Netia S.A. (the "Company" or "Netia") was formed in 1990 as a limited liability company under the laws of Poland and was transformed into a joint stock company in 1992. In 2003 a general meeting of shareholders adopted a resolution changing the Company's name from Netia Holdings S.A. to Netia S.A. The Company is incorporated and domiciled in Poland with its registered office located at ul. Poleczki 13, 02-822 Warsaw, Poland. The parent company is entered in the Register of Entrepreneurs kept by the District Court, XIII Economic Department of the National Court Register, Entry No. KRS 0000041649. The parent company was granted statistical REGON number 011566374. The parent company and other Group entities have an unlimited period of operation.

The interim condensed consolidated financial statements of Netia S.A. for the six-month period ended June 30, 2014 comprising the Company and its subsidiaries, were approved for issuance by the Company's Management Board on August 27, 2014 and were subject to a review by an independent auditor.

The Company and its subsidiaries (together, the "Netia Group") is the largest alternative fixed-line telecommunication operator in Poland. The Netia Group provides various voice telephony, data transmission, television, mobile voice and broadband services. The Group's services are provided to customers by two sales organizations. The business-to-business ("B2B") sales force targets large corporates, small and medium sized enterprises ("SMEs") and other telecommunication operators and the business-to-consumer ("B2C") sales force targets residential and small business customers.

Between inception and 2005, services were principally provided over copper access networks built by the Netia Group. Starting from 2006, the Netia Group has also been providing voice and broadband services using WIMAX technology running over 3.6 – 3.8 GHz frequencies that were acquired by the Group in 2005.

Taking advantage of the opportunities arising from changes in the regulatory environment, the Company concluded a bitstream access agreement ("BSA") with Orange Polska SA (formerly Telekomunikacja Polska SA or "TP SA") and commercially launched its broadband Internet access services over Orange Polska SA's network in January 2007. During 2007 the Company began offering Netia voice services to Orange Polska SA customers including the arrangement whereby the customer pays a monthly fee to Netia as well as the hitherto call by call charges. Netia pays a line rental fee to Orange Polska SA under the Wholesale Line Rental (WLR) administrative decision issued by the telecommunications regulator (Urząd Komunikacji Elektronicznej, "UKE"). During 2008 Netia began to install its own equipment in the Orange Polska SA network nodes using a form of regulated access called Local Loop Unbundling (LLU) and began connecting customers using this form of regulated access.

In September 2008 the Company acquired Tele2 Polska Sp. z o.o. ("Tele2 Polska", merged with Netia in February 2009), a company providing voice and broadband services Poland-wide on the basis of regulated access to the Orange Polska SA network, including call by call, WLR and BSA.

The Netia Group also expanded the footprint of its own network and broadband customer base by acquiring local fast ethernet operators. Since the beginning of 2007, the Netia Group acquired 37 (not in thousands) such operators with a total of 129,808 (not in thousands) active customers. Additionally, the Netia Group acquired 10,723 (not in thousands) customers and related local access networks from other Ethernet operators without purchasing shares in encorporated companies.

To further broaden Netia's product offer, including convergent services, Netia started offering mobile services in September 2008. Netia provides its mobile service based on a Mobile Service Provider Agreement with P4 Sp. z o.o. ("P4"), enabling Netia to buy mobile services wholesale from P4 and resell them as Netia branded mobile services. In the third quarter of 2009, the scope of this cooperation was expanded to cover mobile broadband services as well as mobile handset based voice and data services.

Netia introduced televison services into its offering during 2011 and is gradually upgrading its copper and ethernet access networks using VDSL and fibre to the building (FTTB) technology to deliver faster broadband. The upgraded networks better support high bandwidth services such as television and related content services.

In December 2011 Netia acquired Telefonia DIALOG S.A. ("Dialog", which was transformed into Telefonia DIALOG Sp. z o.o. on April 30, 2012) with its subsidiaries Avista Media Sp. z o.o. ("Avista", merged with Dialog in July 2012) and Petrotel Sp. z o.o. ("Petrotel") (together, the "Dialog Group") and Crowley Data Poland Sp. z o.o ("Crowley", later CDP Netia Sp. z o.o., merged with Netia in August 2012), two other Polish alternative operators, which increased materially the size of the Netia Group. Dialog and Petrotel provide a similar range of telecommunication services to Netia and serve business and residential customers. Crowley was providing telecommunications services exclusively to business customers. Avista was providing call center services mainly for Dialog.

In 2013 Netia acquired a cable TV network covering 446,000 (not in thousands) homes passed in Warsaw and Kraków from UPC Polska Sp. z o.o. (UPC). The network was acquired without any retail subscribers and Netia intends to integrate it with its existing network and offer similar TV, broadband and fixed voice telephony services as are offered over its copper and fiber networks.

Until February 2014 the Netia Group was also engaged in the installation and supply of specialized mobile radio communication services (public trunking) in Poland through its subsidiary UNI-Net Poland Sp. z o.o. (established in May 2009 through a corporate separation from UNI-Net Sp. z o.o. and sold in 2014).

The Company's ordinary shares have been listed on the Warsaw Stock Exchange ("WSE") since July 2000. The Company is subject to periodic reporting requirements under the Polish regulations regarding reporting for companies listed on the WSE.

Going concern

As at June 30, 2014, the Group's equity amounted to PLN 2,079,182 and the Netia Group had negative net working capital of PLN 145,795 inclusive of cash available of PLN 48,251. As at June 30, 2014 the Netia Group had senior secured debt of PLN 369,683 and outstanding balance of an overdraft credit in the amount of PLN 44,025. In addition, the Netia Group had a further PLN 150,000 of undrawn senior secured debt facilities available for the financing of capital expenditures and operating expenses of the Netia Group and for payments to shareholders of the Company. Netia's operations were free cash flow generative in 2013 and in the first half of 2014 and Management expects this to continue over the medium term. Based on this position, the Management does not believe that events or conditions exist which may cast significant doubt on the Company's ability to continue as a going concern.

2. Summary of significant accounting policies

Basis of preparation

Following European Union regulations, commencing January 1, 2005 Netia as a public company in Poland prepares consolidated financial statements, as required by the Accounting Act of September 29, 1994 (Journal of Laws of 2013, No. 330 with later amendments, "the Accounting Act") in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU"). As of August 27, 2014, in light of the current process of IFRS endorsement in the EU and the nature of the Netia Group's activities, there is no difference between IFRS applied by the Netia Group and IFRS endorsed by the EU.

These interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting" ("IAS 34"). The accounting policies used in the preparation of the interim condensed consolidated financial statements are consistent with those used in the annual consolidated financial statements for the year ended December 31, 2013, except for new accounting standards adopted as of January 1, 2014. These interim condensed consolidated financial statements do not include all the information and disclosures required in complete sets of financial statements and should be read in conjunction with the audited December 31, 2013 consolidated financial statements and the related notes.

Items included in the financial statements of each of the Netia Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Polish Złoty ("PLN"), which is the Company's functional and presentation currency.

All Euro amounts shown as supplementary information in the consolidated financial statements have been translated from PLN only as a matter of arithmetic computation using the official rate of the National Bank of Poland at June 30, 2014 of PLN 4.1609 to EUR 1.00. These amounts are included for the convenience of the reader only. Such translation should not be construed as a representation that the PLN amounts have been or could be converted into Euros at this or any other rate.

The consolidated financial statements are prepared under the historic cost convention as modified by the revaluation of available-forsale financial assets and financial liabilities at fair value through profit and loss. However, until December 31, 1996, Poland was considered to be a hyperinflationary economy. The consolidated financial statements for the periods through that date were prepared under the historical cost convention as adjusted for the effects of inflation in accordance with IAS 29, "Financial Reporting in Hyperinflationary Economies". The inflated values in PLN at December 31, 1996 for balance sheet items became the new historical basis for subsequent periods.

The preparation of financial statements in conformity with IFRS as adopted by the EU requires the use of certain critical accounting estimates. The areas where assumptions and estimates are significant to the interim condensed consolidated financial statements include property, plant and equipment and intangible assets (estimation of the recoverable amount and economic useful lives) and deferred income tax (estimation of future taxable profits).

Costs that arise unevenly during the financial year are anticipated or deferred in the interim consolidated financial statements only if it would be also appropriate to anticipate or defer such costs at the end of the financial year.

Neither the Company's nor the Netia Group's activities are subject to any significant seasonal or cyclical trends of operations.

Changes in estimates

In the six-month period ended June 30, 2014 the Netia Group reassessed the useful lives of its software, fixed telecommunication network, telecommunications equipment and machinery and equipment and in consequence, for certain non-current assets the remaining period over which they will be depreciated was extended or shortened and depreciation rates were changed accordingly.

(All amounts in thousands, except as otherwise stated)

The following table summarizes main changes in these estimates:

| Non-current assets | Main changes in the period of depreciation | Decrease in the depreciation charge recognized in current period | Relevant increase in the depreciation charge for the remaining useful life | |

Management is currently assessing the impact of the above standards and interpretations on the Netia Group's operations.

3. Segment information

Following a sales force reorganization that was effective from July 1, 2013, for management purposes the Netia Group is organized into business units based on their customer segments, and has two reportable operating segments, as follows:

- Business-to-consumer ("B2C").
- Business-to business ("B2B").

Starting from the third quarter of 2013 the Netia Group modified retrospectively the presentation of its operating segments, which were reorganized into two main divisions: B2B (comprising the previous Corporate and Carrier segments and the SME component of the previous SOHO/SME segment) and B2C (comprising the previous Residential segment and the SOHO component of previous SOHO/SME segment). Moreover, the previous Corporate segment and SME sub-segments are now presented jointly as a new Business sub-segment. The previous segments monitored by the Management were as follows:

- Home, i.e. residential clients,
- SOHO / SME, i.e. small and medium enterprises,
- Corporate, i.e. large enterprises,
- Carriers, i.e. other telecom service providers.

Management monitors the operating results of its customer segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on EBITDA (defined as operating profit / (loss) excluding depreciation and amortization) and Adjusted EBITDA (defined as operating profit / (loss) excluding depreciation and amortization as well as significant one-off transactions) which is derived from the information in the consolidated financial statements. The Netia Group financing (including finance costs and finance income) and income taxes are managed on a group basis and are not allocated to operating segments. As Netia considers its network to be a single cash generating unit, non-current assets are not acquired by individual operating segments, but shared between them. In order to produce operating profit ("EBIT") for each segment, depreciation and amortization from the shared assets also has to be allocated. The Company uses expected future cash flows from each segment as a basis to allocate depreciation and amortization. The resulting allocations can be volatile between periods, but unlike EBITDA, Management does not place reliance on these segment EBIT results for decision making purposes.

Group subsidiaries Petrotel and Uni-Net (sold on February 6, 2014) are assigned to the unallocated segment as they operate as separate organizations from the rest of the Netia Group. No operating segments have been aggregated to form the above reportable operating segments.

With effect from the beginning of the second quarter of 2014, the Netia Group began operating as two functionally organised business units serving the B2B and B2C customer segments, both supported by a single network organisation and support functions. This reorganisation is expected to result in material changes to the segment information presented below once fully implemented and reflected retrospectively in the first half of 2014 and in 2013 comparative information. The Management expects the changes will occur in the third quarter of 2014. Whilst revenue trends will not be affected, costs will shift from the unallocated segment to the business units, resulting in significant changes to the Adjusted EBITDA margins of each segment.

In order to mitigate the currency risk related to the planned payments to be made under equipment and construction contracts which are indexed to foreign currencies the Company entered into several forward transactions to purchase USD and EUR for periods consistent with currency transaction exposures, generally up to 12 months. For these forward contracts hedge accounting was applied. Net fair value losses on forward contracts recognized in the hedging reserve in equity as of June 30, 2014 amounted to PLN 844 (PLN 726, net of tax). Net fair value gains on forward contracts recognized in other comprehensive income on these contracts in the six-month period ended June 30, 2014 amounted to PLN 369 (PLN 255, net of tax). Furthermore, in order to mitigate the currency risk related to the planned payments to be made under commercial contracts associated with various types of operating expense which are linked to foreign currency, the Company entered into several forward transactions to purchase USD and EUR for periods consistent with currency transaction exposures, generally up to 12 months. accounting was not applied. During the six-month period ended June 30, 2014, PLN 535 of fair value gains on open forward contracts were recorded as finance income.

Interests rate risk hedging instruments

In 2012 the Company entered into interest rate swap ("IRS") contracts hedging interest rate risk associated with interest payments in the amount of fifty per cent of all amounts projected to be outstanding under the Term Loan and on May 29, 2013 the Company entered into further interest rate swap contracts increasing the hedged interest rate risk to seventy five per cent of all amounts projected to be outstanding under the Term Loan (See Note 11 Borrowings). For these IRS contracts hedge accounting was applied. As at June 30, 2014 net fair value losses on IRS contracts recognized in the hedging reserve in equity amounted to PLN 6,401 (PLN 5,186, net of tax). Net fair value losses on IRS contracts recognized in other comprehensive income in the six-month period ended June 30, 2014 amounted to PLN 20 (PLN 16, net of tax). During the six-month period ended June 30, 2014, PLN 2,300 of net realized cash losses on IRS contracts increased interest costs.

Shareholders' equity

Share capital (not in thousands)

At June 30, 2014, and December 31, 2013, the Company's share capital consisted of 347,909,774 ordinary shares and 1,000 series A1 shares with a par value of PLN 1 per share. Each ordinary share has one vote at the shareholders' meeting. The holder of 1,000 series A1 shares has the right to nominate one member of the Supervisory Board. The majority of votes of the Supervisory Board elect the Management Board. All shares issued by the Company were fully paid and registered in the National Court Registry by the date of signing these consolidated financial statements.

Distributable reserves

In accordance with the Polish Code of Commercial Companies of 15 September 2000 (Journal of Laws of 2000, No. 94, item 1037 as amended) only those reserves, which relate to net profits of individual companies shown in their statutory financial statements, are available for distribution to shareholders. As at June 30, 2014, the distributable reserves of Netia S.A. amounted to PLN 203,087.

Stock options (not in thousands)

On May 26, 2010, the Annual Shareholders Meeting resolved to adopt a set of rules ("New Plan"), to be administered by the Company's Supervisory Board until 26 May 2020, for the issuing of up to 27,253,674 share options to the Management Board and employees of Netia Group, each option authorising its holder to receive up to half of one series L share for a subscription price equal to the nominal value of the shares in the Company i.e. PLN 1, such subscription price to be paid by the Company or its subsidiaries. The options will be granted by the Supervisory Board in tranches. Each tranche of the options will be exercised within the periods established by the Supervisory Board, however, not earlier than three years following the date of the grant thereof. In order to satisfy the claims arising from the exercise of the options under the New Plan, the Shareholders Meeting resolved to authorize the issuance of up to 13,626,837 series L shares.

As at June 30, 2014 and December 31, 2013, the total number of options approved by the Supervisory Board and issued under the New Plan was 14,398,992 and 10,991,000, respectively Out of these approved options 8,670,378 options were outstanding as at June 30, 2014 and 7,322,068 were outstanding as at December 31, 2013. As at June 30, 2014, the remaining contractual life of the outstanding options was 5.9 years. The outstanding options are exercisable until May 26, 2020. Upon exercise of the options, Netia will issue to each exercising participant the number of shares representing such participant's financial gain resulting from the exercise of the options, being the difference between the market price of the Company's shares as of the date of exercise of the options and the strike price of the options, limited to half of one series L share for each option exercised. The participant will not be required to pay the strike price.

On June 28, 2013 the Supervisory Board of Netia adopted a resolution on decreasing by PLN 0.16 the strike price of all existing options issued to the Management Board members and the employees of the Company and its subsidiaries in connection with the New Plan. This decrease of the strike price of all the existing options granted to the participants of the New Plan was necessary to neutralize the impact of the acquisition by the Company on May 28, 2013 of 16,012,630 of its shares for the price of PLN 8 per share in the performance of the share buy-back program conducted by the Company. The purchase by the Company of its own shares on the terms described above had a proforma impact on the market value of the Company's shares equivalent to a dividend payment and therefore it resulted in a decrease of the market value of the Company's shares and a corresponding decrease of the value of all the existing options granted to the participants of the New Plan. The plan makes specific provisions for the reduction of strike prices to neutralize the effect of dividend payments on the value of the plan and, furthermore, authorizes the Supervisory Board to make adjustments to the plan to neutralize the impact of unusual or one-off events, such as this repurchase of shares.

On June 17, 2014, as a result of a dividend payment (see Note 15), the strike prices of all outstanding options decreased by PLN 0.42. The new strike prices of the options range between PLN 4.12 and PLN 5.58.

The Company recognizes the cost of share-based awards to employees (including share options) over the vesting period and the fair value of options is determined using a binomial pricing model and taking into account business performance criteria in the financial year in which the options were granted. The cost of New Plan options recorded in the six-month periods ended June 30, 2014 and 2013 amounted to PLN 1,314 thousands and PLN 1,336 thousands, respectively.

(All amounts in thousands, except as otherwise stated)

In the six-month periods ended June 30, 2014 and 2013 the following changes took place in the number of options granted under the New Plan:

The deferred income tax calculation is based upon the probability that future taxable profit will be available against which temporary differences, unused tax losses and unused tax credits can be utilized. That calculation is based upon Management's estimates, which are subject to considerable uncertainty and the actual outcome may differ. These estimates may be altered to reflect changes in the economic, technological and competitive environment in which the Netia Group operates.

As of December 31, 2013 the Management updated its previous year's assessment regarding the recognition of deferred income tax. The new assessment concluded that the Netia Group expects that future taxable profits will be generated based on the 2014 budget and long term business plan covering the period until 2018. Management's assessment also considered factors such as: the stability and trend of past earnings, the nature of the business and industry, and the economic environment in which the Netia Group is located.

As at June 30, 2014 Netia Group had net deferred income tax asset of PLN 77,813. Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes relate to the same fiscal authority. Deferred income tax liabilities of PLN 13,089 presented in the consolidated statement of the financial position as of June 30, 2014 relate to net deferred income tax liabilities recognized in Netia and one of its subsidiaries (after intercompany eliminations).

Deferred income tax assets are recognized for deductible temporary differences and tax loss carry-forwards to the extent that the realization of the related tax benefit through the future taxable profits is probable. The Polish tax system has restrictive provisions for grouping of tax losses for multiple legal entities under common control, such as those of the Netia Group. Thus, each of the Company's subsidiaries may only utilize its own tax losses to offset taxable income in subsequent years. Losses are not indexed to inflation. Tax losses are permitted to be utilized over five years with a 50% utilization restriction per annum.

As at June 30, 2014 and December 31, 2013 no liabilities related to the Value Creation Transactional Bonus Scheme were recognized in the consolidated statement of financial position. Possible liabilities under the Value Creation Transactional Bonus Scheme are described in Note 20.

Restricted Stock Units (not in thousands)

As at December 31, 2013, the total number of Restricted Stock Units ("RSU") granted to the members of the Company's Supervisory Board was 760,000. RSUs entitled the holder to receive additional cash remuneration equal to the value of restricted stock units, which corresponds to the market price of the Company's shares. The vesting period for the RSU ranged from 12 to 36 months after the grant date.

On May 21, 2014, Annual Shareholders Meeting approved changes of the rules of remunerating the Supervisory Board members dated April 9, 2009. These changes withdrew remuneration by Restricted Stock Units with immediate effect.

Due to their dismissal from the Supervisory Board (see Note 17) as of May 21, 2014 and the termination of Restricted Stock Unit remuneration in accordance with the rules on remuneration with Restricted Stock Units adopted on July 26, 2010, all Supervisory Board's member became authorized to exercise immediately their vested and unvested RSU's.

Changes in the number of RSU's held by members of the Company's Supervisory Board in the six-month period ended June 30, 2014 are presented below:

19. Commitments

Capital commitments

Capital expenditures contracted for at the balance sheet date but not recognized in the consolidated financial statements amounted to PLN 33,448 as at June 30, 2014 and PLN 14,634 as at December 31, 2013 of which, PLN 3,789 and PLN 1,639 respectively, related to the planned acquisition of intangible assets.

20. Contingencies

Universal services

The telecommunications law stipulates that the obligation to provide universal service should be designated by the President of UKE following completion of a tender procedure. The President of UKE issued a decision designating Orange Polska SA to provide universal service until May 8, 2011. Telecommunications undertakings, whose relevant annual revenue from telecommunications activity exceeds PLN 4,000, are obliged to participate in financing of the universal service obligation. The exact participation amount of a telecommunications undertaking obliged to pay subsidy will be established by virtue of the President of UKE decision and cannot exceed 1% of revenues of a given telecommunications undertaking in a given calendar year.

Orange Polska SA filed with the President of UKE applications for awarding subsidy towards incurred costs of universal service provision. The applications cover subsidy towards costs incurred in the period from May 8, 2006, until May 8, 2011, i.e. the whole period of obligation to provide universal service by Orange Polska SA. The total amount claimed by Orange Polska SA on all applications for 2006-2011 was PLN 1,106,994. The last application was filed by Orange Polska SA on 29 June 2012 and included a request for subsidy for the period from January 1 to May 8, 2011 in the amount of PLN 33,837.

In May 2011, the President of UKE issued decisions by virtue of which Orange Polska SA was awarded subsidies towards incurred costs of several services falling within the scope of universal service as follows:

in 2006 - amounting to PLN 745 - due to provision of facilities for customers with disabilities

in 2007 - amounting to PLN 1,269 - due to provision of facilities for customers with disabilities

in 2008 - amounting to PLN 1,830 - due to provision of facilities for customers with disabilities

in 2009 - amounting to PLN 63,150 - due to provision of facilities for customers with disabilities as well as provision of telephone services with use of public pay phones.

Following Orange Polska SA requesting the Regulator to reconsider her decisions, on September 7, 2011, the President of UKE upheld the decisions awarding subsidies towards incurred costs of universal service for years 2006-2009.

On January 10, 2012, the President of UKE issued decisions by virtue of which Orange Polska SA was awarded subsidies towards incurred

(All amounts in thousands, except as otherwise stated)

costs of several services falling within the scope of universal service for 2010 amounting to PLN 55,102 due to provision of facilities for customers with disabilities as well as provision of telephone services with use of public pay phones. Following reconsideration of the case on a basis of the Orange Polska SA requesting the Regulator upheld this decision by the decision issued on April 11, 2012.

Orange Polska SA appealed the decisions of the President of UKE to the Voivodship Administrative Court (further "WSA"). WSA dismissed the complaints of Orange Polska SA against the decisions granting the subsidies towards costs of provision of universal service in 2006 – 2010 and Orange Polska SA has appealed the WSA decisions to the Supreme Administrative Court (further "NSA").

On December 5, 2013 NSA repealed the judgments of the WSA dismissing the appeals about granting Orange Polska SA subsidies for the years 2006 and 2007 and remanded both cases for reconsideration to the WSA. On July 17, 2014 WSA repealed the decisions of the President of UKE. After receipt of the written reasons of the judgment KIGEiT will consider submitting a cassation complaint to the NSA.

On May 13, 2014 the NSA repealed the judgments of the WSA dismissing the Orange Polska S.A. complaints on the decisions of the President of UKE granting Orange Polska S.A. subsidies for providing the universal service for the years 2008 and 2009 and remanded the case for the reconsideration to the WSA.

Although the Management Board is convinced of the validity of the issued decisions, cannot assure that decisions for the years 2006 – 2009 will be finally maintained and the amount of the Netia Group's share in the subsidy to the universal service cost will not be increased. The Management Board cannot assure that the judgement of the WSA dismissing the Orange Polska S.A. complaint for the subsidies for the 2010 year will be maintained by the NSA and as the consequence the share of the Netia Group companies in the cost of the universal service for the year 2010 will not be increased above the current estimate.

In total, Orange Polska SA was awarded PLN 122,096 for the provision of universal service within the years 2006-2010.

On September 20, 2013 the President of UKE, after re-consideration of the case, issued a decision granting Orange Polska SA subsidy towards costs of provision of universal service in the period from January 1, 2011 till May 8, 2011 amounting to 14,903 PLN.

On October 21, 2013 KIGEIT appealed against the abovementioned decision to the WSA. While the Management Board is convinced of the defective nature of the issued decision, it cannot assure that the decision will be repealed by the WSA and that a subsidy for 2011 shall not be finally granted.

On March 20, 2014 the President of UKE issued a decision establishing that enterprises are obliged to subsidise the cost of universal service for the year 2006 by contributing in the amount of 0,0018992546 % of their 2006 revenues. Netia and Dialog sent to the President of UKE a request to reconsider the decision. Should the rate be upheld, the provision which was made to cover the potential Netia Group companies' share in the subsidy for universal service provided in 2006 would be sufficient.

The exact amount of share in the subsidies to costs of universal services to be payable by each telecommunications undertaking requires the President of UKE to issue individual decisions. Until the date of approval of these consolidated financial statements of the Netia Group, the Company has received no such decisions.

The Management estimates the total amount of potential obligation of Companies of the Netia Group to subsidise the cost of USO at PLN 7,006. This estimate takes into account their market shares in 2006 – 2011 and decisions of the President of UKE, in which the amounts of subsidies towards the costs of providing universal service in years 2006 – 2011 were granted in the total amount of PLN 136,999. The Companies of the Netia Group have made a provision for this amount to cover potential obligations under the subsidy for universal service provided in the years 2006 – 2011.

Should Orange Polska SA prevail in any of the aforementioned litigation, the USO liability in respect to 2006 – 2011 could still rise materially above the amount provided to date.

On the basis of the full amount of subsidies claimed by Orange Polska SA and of the Company's estimations concerning revenues of telecommunications services providers that may participate in subsidies towards universal services, the amount of subsidy towards universal service that might conceivably be claimed by Orange Polska SA from the Netia Group amounts to approximately PLN 54,002 for the period from 2006 until 2011 inclusive as follows:

| | Maximum subsidies | Provision |
|------|-------------------|-----------|
| | PLN | PLN |
| 2006 | 6,293 | 34 |
| 2007 | 10,862 | 63 |
| 2008 | 9,202 | 80 |
| 2009 | 11,964 | 3,199 |
| 2010 | 13,888 | 2,840 |
| 2011 | 1,793 | 790 |
| | 54,002 | 7,006 |
| | | |

Pursuant to the decision of the President of UKE designating Orange Polska SA to provide universal service the above obligation of Orange Polska SA expired as of May 8, 2011. To date no undertaking has been obliged to provide USO from May 9, 2011 onwards and, according to the published position of the President of UKE, will not be.

On January 28, 2014 the President of UKE commenced consultations on the Report "The status and the assessment of availability, quality of service and affordability of services included in the universal service". On May 5, 2014 the President of UKE published the Report "The state and the assessment of the availability, the quality of service and the price accessibility of the services included in the universal service", where the President of UKE stated that all services included in the universal service in the telecommunication market are currently provided with good

quality and are reasonable priced in the whole Poland, what implies lack of the indications to begin the procedure to appoint the undertaking appointed to provide universal service. At the same time the President of UKE stipulated that he will continue to monitor providing of the services included in the universal service by the telecommunication companies in Poland.

However the Management Board cannot assure that, in the future, the President of UKE would not aim to change to a new model of USO, and in such a case that it would not cause additional costs to be incurred by Netia Group.

Tax contingent liability

Regulations relating to value-added tax, corporate income tax, and payroll (social) taxes have radically changed in comparison to the tax regulations, which existed prior to the economic and political transformation in Poland. The lack of reference to well-established practices and the relatively short period in which these new tax regulations have been in place often results in a lack of clarity and consistency in the regulations. Frequent contradictions in legal interpretations both within government bodies and between companies and government bodies create uncertainties and conflicts. Tax settlements, together with other areas of legal compliance are subject to review and investigation by a number of authorities, which are entitled to impose severe fines, penalties and interest charges. These facts create tax risks in Poland that are substantially more significant than those typically found in countries with more developed tax systems. The tax authorities may at any time inspect the books and records of the Company and may impose additional tax assessments with penalty interest and penalties within 5 years from the end of the year when a tax is due.

Overpayment of tax (not in thousands)

On August 17, 2009 Company received a decision of the Director of the Tax Control Office in Warsaw ("UKS Director") according to which Netia's corporate income tax due for the year 2003 was set at PLN 58.7m plus penalty interest.

On February 19, 2010 Netia received a binding and enforceable decision of the Director of the Tax Chamber according to which the Company's corporate income tax due for the year 2003 was set at PLN 34.2m plus penalty interest of approximately PLN 25.3m. This decision reduced the original decision of the UKS Director whilst upholding most of the points raised.

Netia executed the decision of the Tax Chamber Director, which was enforceable as a decision of the second instance tax authority, on February 23, 2010. Of the PLN 59.6m paid, PLN 1.3m was subsequently conceded by the Tax Authority as overpayment. During 2010, Netia treated the tax paid as a receivable in its accounts rather than as an expense, due to Management's expectations, based on the expert advice received, that the amounts paid will ultimately be recovered.

The Company appealed to the WSA against the decision issued by the Tax Chamber Director. However, on March 15, 2011 the WSA delivered a judgment dismissing the Company's claim in its entirety. Following this decision in favour of the tax office in the first quarter of the year 2011 the Company recognized an income tax expense relating to the year 2003 of PLN 58,325 thousands.

On July 5, 2011 the Company received the written justification of this decision and the Company filed a cassation claim to the NSA on August 3, 2011.

On December 30, 2011 Netia received a repayment of PLN 6.4m related to penalty interests paid previously by the Company and subsequently conceded by the Tax Authority as incorrectly claimed.

On February 22, 2012 Netia received a further payment of PLN 1.4m concerning penalty interests on the amount returned in December 2011.

On June 25, 2013 the NSA Court in Warsaw set aside the appealed judgment of the WSA upholding the decision of the Director of the Tax Chamber in Warsaw in its entirety and remanded the case for reconsideration back to to the first-instance court.

On October 10, 2013, the WSA annulled the Decision of the Director of the Tax Chamber in its entirety.

On 30 December 2013, the Company filed a cassation appeal against the judgment of the WSA due to the justification of the judgment of the court not fully reflecting the position presented by the Company during the WSA proceedings. The Tax Chamber did not lodge an appeal to NSA in respect to this judgment.

On June 24, 2014 NSA issued a decision rejecting the arguments presented by Netia and, as a result, the WSA decision of 10 October 2013 became binding. As a result the second instance decision of the Director of the Tax Chamber has been removed from legal circulation while the original first instance decision is now once again in force before the Director of the Tax Chamber and once again awaits its review while taking into account the subsequent binding decisions and the justifications of the WSA and the NSA.

Netia will undertake all possible legal steps to prove that the decision of the Tax Chamber Director was groundless and reclaim the remaining net amount of PLN 51.9 m paid to tax office, together with related interest.

However, it is not clear to the Management Board what steps the tax authorities may decide to take to defend their position and therefore it is not possible to estimate how long it may take for proceedings to be finalised.

Possible liabilities under the Value Creation Transactional Bonus Scheme(VCTB) (not in thousands)

Following a decision of the Supervisory Board on April 25, 2012, as of June 30, 2014 three members of Netia's Management Board held Participation Units (PUs) in a cash paid bonus scheme known as the Value Creation Transactional Bonus Scheme (VCTB) (see also Note 19). As of the date of these financial statements, a total of 9,500,000 from a possible 11,400,000 PUs have been allocated to the Management Board Members, from which 5,700,000 were outstanding as of June 30, 2014.

Each PU has an original strike price of 7.00 zloty per share and a term of 36 months commencing on December 31, 2012. The strike price adjusts upward over time by one percent per month from January 31, 2013 and is reduced by any dividends paid out by the Company ("the

(All amounts in thousands, except as otherwise stated)

Adjusted Strike Price"). In the event that an investor or consortium of investors holds at least 90 % of Netia's equity on or prior to December 31, 2015 ("Trigger Event"), each PU shall be worth the difference between the acquisition price paid in a successful tender offering that secures the 90 % share-holding and the Adjusted Strike Price. For the purpose of calculating the value of the PU, the acquisition price is capped at 10 zloty per share. Should a Trigger Event occur after December 31, 2012 and prior to the expiration of the PUs on December 31, 2015, the Company shall pay the cash equivalent of the value of the PUs to each participating Management Board Member who was fulfilling his duties as at December 31, 2012 and has not resigned from his position prior to such Trigger Event.

The PUs will expire without value if there is no Trigger Event on or prior to December 31, 2015 or if the Management Board Member to whom they are allocated resigns prior to the Trigger Event or if the Trigger Event occurs at a price below the Adjusted Strike Price, which stood at 7.77 on June 30, 2014. Conversely, had a Trigger Event occurred for an acquisition price of 10 zloty or above occurred on June 30, 2014 and with all three Management Board Members still performing their duties at the Company on the day of the Trigger Event, the maximum possible liability incurred by the Company would have been 12,711,000 PLN. This amount will fall as December 31, 2015 approaches without a Trigger Event occurring and as the Adjusted Strike Price increases towards 10 zloty per share. In calculating the Adjusted Strike Price as at June 30, 2014, Management has applied the same 16 groszy reduction that the Supervisory Board elected to apply to the Company's outstanding stock options in 2013 in order to neutralise the impact of the offer to repurchase shares as its effect was similar to that of a dividend payment as well as 0,42 groszy reduction due to dividend payment in 2014.

Given that Netia is not presently controlled by any single large investor and given that Management is not in possession of information concerning the circumstances under which existing large shareholders may consider disposing of their shares in the Company, it is not possible for Management to make a reliable estimate of the likelihood of a Trigger Event occurring during the validity period of the PUs or to reliably estimate at what price such a Trigger Event might occur. Accordingly, Management is presently unable to reliably estimate the fair value of the VCTB contingent liability as would otherwise be required in accordance with IFRS 2, Share Based Payments.

Possible liabilities under the New Plan

According to the New Plan (see also Note 9), in the event of a tender to purchase all of the remaining shares in the Company is announced and as a result of such tender any "person" or "group of persons acting in concert" comes into possession, directly or indirectly, of at least 80% of the total outstanding voting securities of the Company ("Change of Control"), each of the option holders shall have the right to demand to exchange his stock options which are non-vested for a cash consideration

Given that Netia is not presently controlled by any single large investor and given that Management is not in possession of information concerning the circumstances under which existing large shareholders may consider disposing of their shares in the Company, it is not possible for Management to make a reliable estimate of the likelihood of a Change of Control occurring until May 20, 2020. Accordingly, Management is presently unable to reliably estimate the fair value of the contingent liability to settle issued options in cash as would otherwise be required in accordance with IFRS 2, Share Based Payments. However, had the Change of Control occurred as at June 30, 2014 when the market price of the Company's shares was PLN 5.19 (not in thousands) per share, the liability to settle in cash all outstanding non-vested options would amount to PLN 3,662.
