

**Consolidated report  
on payments to governments  
of the PGNiG Group for 2021**

---

**2021**

## Basis of preparation

---

This consolidated report on payments to governments made by the PGNiG Group in 2021 has been prepared in accordance with the requirements of the Polish Accounting Act of September 29th 1994 (Dz.U. of 2021, item 217, as amended) (the "Act").

## Definitions

---

### Government

In accordance with the Act, the term 'government' means any national or local authority as well as any undertakings supervised or controlled by such authority.

### Project

'Project' means the operational activities governed by a contract (including, without limitation, a lease, licence or concession contract), which forms the basis for payment liabilities to governments of individual countries. If two or more such agreements are substantially interconnected, the operational activities carried out under such agreements are considered a single project.

### Types of payments

The payments include amounts actually paid/transferred, where the direct recipient is a government. In the case of operatorship agreements related to exploration and production licences, if a PGNiG Group company is not the operator, this report does not include any payments made to the operator (which is not a government), unless it is possible to identify such payment made indirectly by the operator on behalf of a PGNiG Group entity to a government.

### Materiality threshold

As required by the Act, the Group assumed that a single payment or a sum of related payments to a government is material if it is the equivalent of at least PLN 424,700.

### Presentation currency

The Polish zloty (PLN) is the functional currency of PGNiG S.A. and the presentation currency of this consolidated report on payments to governments of the PGNiG Group. Figures in this report are presented in millions of Polish zloty.

Items of this report which are expressed in foreign currencies have been translated at the relevant exchange rate computed as the arithmetic mean of mid rates quoted by the National Bank of Poland (NBP) for the last day of each month of the financial year.

## Information about the Group

---

Polskie Górnictwo Naftowe i Gazownictwo S.A. ("PGNiG") is the parent of the PGNiG Group (the "Group"). The group of entities making up the Group was determined in accordance with the International Financial Reporting Standards ("IFRS") as endorsed by the European Union ("EU"). A detailed list of PGNiG Group entities as at the end of 2021 is presented in the Consolidated Annual Report of the PGNiG Group for 2021, published on PGNiG S.A.'s website: [www.pgnig.pl](http://www.pgnig.pl).

The PGNiG Group prepared this consolidated report on payments to governments in relation to its extractive activities, consisting in the exploration for and production of natural gas and crude oil. The Group engages in such activities primarily in Poland, and also abroad (mainly in Norway and Pakistan). This report presents payments to governments made by the Group in those and other countries, broken down by the government level.

For more information on the extractive activities carried out by the Group's Exploration and Production segment, see the Directors' Report on the operations of PGNiG S.A. and the PGNiG Group, which is part of the Consolidated Annual Report published on PGNiG S.A.'s website: [www.pgnig.pl](http://www.pgnig.pl).
